

WE ARE GRATEFUL

Thank you to the 60,000 RPNs across Ontario. Your expertise, experience, and compassion keep our communities healthy and safe – despite the many challenges faced from day-to-day.

Your care makes a difference – to patients, to families, to the healthcare system – and we are proud to advocate for you and stand alongside you in support.

The Registered Practical Nurses Association of Ontario (WeRPN) thanks all RPNs for making us a healthier province and a stronger profession. Together, we will continue championing improvements to our healthcare system and inspire change.
