

Blurb for WeRPN newsletter

Researchers at Western University are inviting volunteers to participate in one-on-one online interviews.

The purpose of this research is to describe the supports that help nursing bridging students face the challenges associated with bridging, and to understand when nursing bridging students need particular supports to be offered.

Eligible participants must:

1. be, or have been, enrolled in a nursing bridging education program in the last 12-months in Ontario
2. have been a recipient in WeRPN's BEGIN program
3. have, or plan to complete, their return of service in LTC
4. be able to read, write and speak in English

The interview will require no more than 60-minutes of your time. To thank you for your time, we will compensate you for your time.

If you are interested in participating in this study, please email Dr. Nicole Guitar (nguitar@uwo.ca) for more information.

Thank you in advance for your consideration.
