## Seeking **Health Care Providers** Working in **Long-Term Care** Settings to Participate in a Research Study!

**Project Title:** From Overlooked to Understood: Investigating Spasticity Prevalence, Impact, and Management in LTC.

**Study Purpose:** We're investigating health care providers' perceptions of the prevalence, management, and impact of post-stroke spasticity in long-term care settings.

### Who Can Participate?

- ✓ Personal Support Workers (**PSW**) Registered Practical Nurses (**RPN**) and Registered Nurses (**RN**) working **in long-term care** with English proficiency.

### Share your experiences related to post-stroke spasticity in long-term care:

-  Participate a **5–10-minute online survey**
-  Help us understand the impact of managing post-stroke spasticity in your caregiving role.
-  Participants will be entered into a draw for **\$100 Amazon gift cards**.
