

We are looking for ONTARIO based **PRIMARY CARE** nurses to participate in a study!

Researchers from Western University's Department of Family Medicine are inviting participants to take part in a study called *Strengthening Team-Based Care: Optimizing the Scope of Practice of Primary Care Nurses (PC-Ns)*.

This project aims to highlight PC-Ns' unique roles, support better teamwork, and help primary care teams work more effectively.

Participation includes an interview to understand how primary care nurses of all designations use their full scope of practice. Participation would take approx. one hour.

You will be compensated for your time.

Eligibility Criteria:

- a licensed nurse: Nurse practitioner (NP), or Registered nurse (RN), or Registered Practical Nurse (RPN)
- currently practicing
- working in comprehensive primary care
- Ontario based.

Interested in participating in our study?
